The largest private Sanitarium in Southern New England for the treatment of neuro-psychiatric patients, and habit conditions.

The Sanitarium buildings are delightfully located in an estate of one hundred acres. Modern equipment in a dignified environment.

Beautiful gardens, rustic walks, and scenic vistas—all conducive to rest and recovery.

A staff of resident psychiatrists, competent nurses, also diversional and occupational aides direct the various methods of treatment.

Write for further information.

## SHARPER SURGICAL SCISSORS WITHOUT REGRINDING

CONSTANT regrinding of your scissors eventually destroys them. Why not eliminate it? BARD-PARKER RENEWABLE EDGE SCISSORS require no regrinding. Dulled edges are quickly replaced with new keen edges at 16½ cents per pair against a much higher average regrinding cost for other scissors.

Bard-Parker Scissors practically eliminate scissors replacements. Since they are not subject to grinding wear, they last indefinitely saving you many times over the cost of replacing scissors worn out by repeated grindings.

Bard-Parker Scissors facilitate operating technique because the edges are uniformly sharp. This is seldom true of reground scissors.

We believe that Bard-Parker Renewable Edge Scissors will give you greater economy and efficiency. Why not ask your dealer to show you a pair or write for further particulars?
